

RYAN CROSS

Aerospace Engineering Student | Boulder, Colorado | ryanc31415@gmail.com | linkedin.com/in/ryan-cross-

Profile

Aerospace engineering student with experience in propulsion, integrated testing, and systems engineering. Interested in building practical test plans, learning from real hardware, and turning results into useful engineering decisions.

Education

University of Colorado Boulder

B.S. Aerospace Engineering, expected 2026

Experience

Stampede Sky - Propulsion and Integrated Test

Contributed propulsion and integrated test work for a CU Boulder aerospace senior design team, connecting subsystem decisions with full vehicle evaluation.

Kairos Power - Test Engineering Intern

Supported test engineering work at a company developing advanced nuclear technology, with an emphasis on clear data and practical engineering decisions.

Skills

Propulsion | Integrated Test | Systems Engineering | Test Engineering | Data Analysis
